

CITY OF APALACHICOLA

REQUEST FOR STATEMENT OF QUALIFICATIONS FROM PROFESSIONAL CONSULTANTS

The City of Apalachicola solicits for a wide variety of Professional Services from Consultants and Firms across a number of disciplines.

All Consultants/Firms who currently provide Professional Services to the City, who have historically provided such services or who would like to provide such services in the future are encouraged to submit a Statement of Qualifications and Performance to the City on an Annual basis. Such Statement should be consistent with the provisions of Section 287.055, F.S.

The submittal of a Statement of Qualifications and Performance should not be considered a response to any particular City solicitation or a promise of work.

The Statements will be utilized by the City to track performance of existing Consultants/Firms and as a City resource when providing notice of future solicitations to qualified Consultants/Firms. Specifically, the City reserves the right to utilize the Statements submitted as part of any certification process to determine a Firm's eligibility to provide professional services. The Statements will be utilized to evaluate the capabilities, adequacy of personnel, past record, experience and minority business enterprise status.
