BRIEF SUMMARY:

Cindy Clark (Bay Media) presented the 2024 Vulnerability Assessment and Resiliency Analysis in a workshop to the Commission on April 8, 2025. A detailed discussion of the Focus Area identification and justification of the process was presented. Findings from the Vulnerability Analysis provide the basis for developing the City's Adaptation Action Plan – a plan of recommendations for addressing vulnerable infrastructure needs.

Commissioners agreed on the following priority ranking and focus areas:

Priority 1: Focus Area #E (5)

Priority 2: Focus Area #F (6)

Priority 3: Focus Area #B (2)

Priority 4: Focus Area #A (1)

Priority 5: Focus Area #D (4)

Priority 6: Focus Area #C (3)

RECOMMENDED MOTION AND REQUESTED ACTIONS: Approve the prioritized ranking agreed upon during April 8 meeting.

ATTACHMENTS:

Focus area Prioritization Information Sheet

Focus Area Prioritization

The Focus Areas are ranked from 1 to 6 in priority in the Table 70. Justification for their prioritization is based on asset and area vulnerability.

Priority Rank 1: Focus Area **E.** As a result of Focus Area E containing so many of the City's assets, it ranks the highest. The area is impacted by major storm surge events.

Priority Rank 2: Focus Area **F.** This area contains the wastewater treatment facility and the City's water plant and the Apalachicola Airport. The area is impacted by major storm surge events.

Priority Rank 3: Focus Area **B** Focus Area B contains assets that rank the area highly. The area is essentially tied with Focus Area #1.

Priority Rank 4: Focus Area **A.** Focus Area A is located adjacent to the Apalachicola River and is vulnerable to coastal flooding. It is part of the City's downtown commercial district and as such, is an important economic consideration. The area contains several critical infrastructure facilities and historic resources.

Priority Rank 5: Focus Area **D**. Focus Area D is the area of the relict creek bed that is roughly between Avenue B and Avenue M and 9th Street and Market Street. This area is significant because it is subject to nuisance flooding.

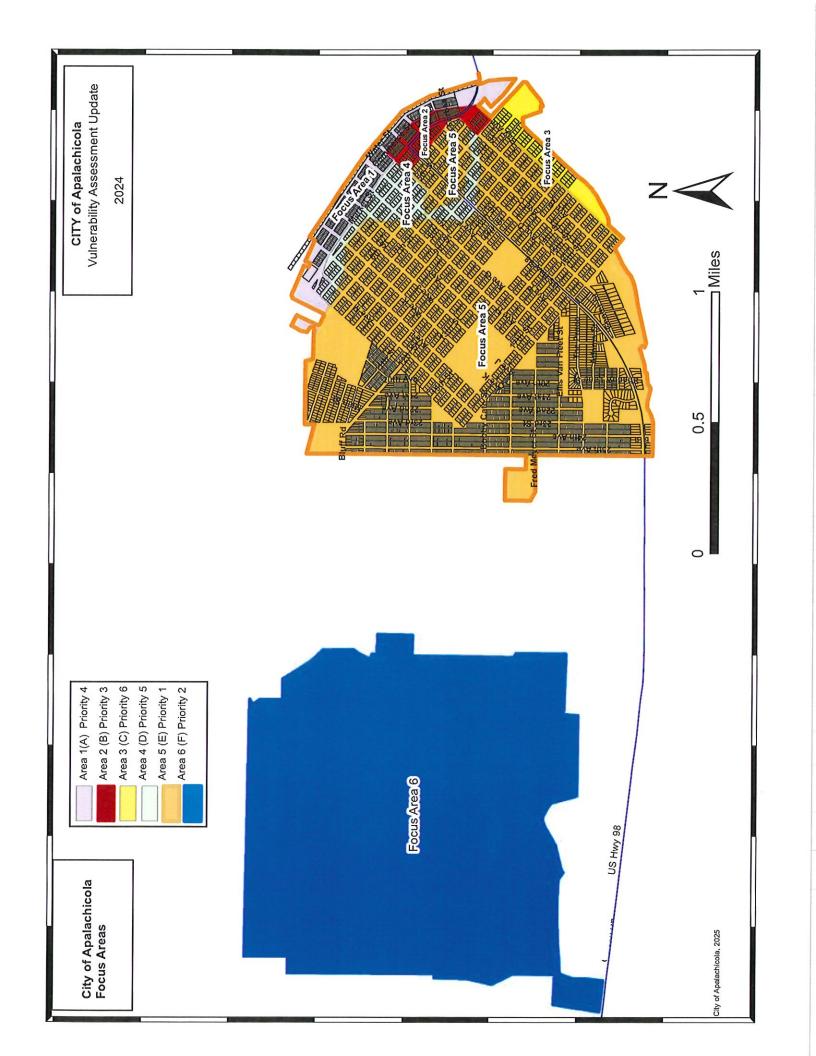

Priority Rank 6: Focus Area **C**. This residential area along the Apalachicola bayfront is vulnerable to coastal flooding. The area contains several vulnerable sewer lift stations and stormwater outfalls.

Table 70 Ranking of Focus Areas by Vulnerability

Focus Area	E(5)	F (6)	B (2)	A (1)	D (4)	C (3)	
Priority Ranking	_	2	n	4	2	9	

Note: A higher focus area prioritization may not necessarily be the ultimate consideration when managing vulnerable assets. The town is small and depending on the storm impact storm impacts may be felt Citywide.

Per your request, please find attached a list of projects with corresponding budgets for the Area of Critical State Concern (AOCSC) spend. Couple of things to note regarding the spreadsheet:

- The spreadsheet contains the project we submitted for the SRF SAHM funding. The projects are rows 3-9 and have "SRF SAHM Drinking Water or Clean Water" listed as the potential funding source.
- The potential items for the AOCSC spend are highlighted in green. The first two items (rows 8-9) could be funded through the SRF SAHM, but we included as potential for AOCSC as well.
- The items are ranked in priority (1-13).
- Including rows 8-9, the total estimate is \$6,411,800. If we exclude rows 8-9, the total is \$4,675,000.

Let me know if you have any questions.

The following definitions apply to these Risk Management Provisions:

Contract - The contract or agreement of which these Risk Management Provisions are a part for the construction, alteration, repair, or demolition of a structure or facility.

Organization - The CITY OF APALACHICOLA, a local governmental body of the State of Florida, its Commission, officers, employees, volunteers, representatives, and agents.

Other Party - The other party to the Contract of which these Risk Management Provisions are a part, any subsidiaries or affiliates, officers, employees, volunteers, representatives, agents, contractors, and subcontractors.

HOLD HARMLESS

The Other Party agrees to hold the Organization and the members of its governing Commission and its other officers and employees harmless against all claims for bodily injury, sickness, disease, death, personal injury, or damage to property or loss of use resulting therefrom, arising out of or related to the Contract, to the extent such claims are caused by the negligence, recklessness, or intentional wrongful misconduct of the Other Party and persons or entities employed or utilized by the Other Party in the performance of the Contract.

PAYMENT ON BEHALF OF ORGANIZATION

The Other Party agrees to pay on behalf of the Organization all claims described in the above "Hold Harmless" paragraph, and to pay the reasonable costs and fees of the attorneys selected by the Organization, at trial and on appeal, to defend the Organization and its officers and employees against such claims. Provided, however, that the total liability of the Other Party to the Organization under the above "Hold Harmless" paragraph and this "Payment on Behalf of Organization" paragraph shall not exceed the sum of One Million Dollars (\$1,000,000) per claim or occurrence.

Such payment on behalf of the Organization shall be in addition to any and all other legal remedies available to the Organization and shall not be considered to the exclusive remedy of the Organization.

LOSS CONTROLS/SAFETY

Precaution shall be exercised at all times by the Other Party for the protection of all persons, including employees, and property. The Other Party shall comply with all laws, regulations, or ordinances relating to safety and health, and shall make special effort to detect hazardous conditions and shall take prompt action where loss control/safety measures should reasonably be expected.

The Organization may order work to be stopped if conditions exist that present immediate danger to persons or property. The Other party acknowledges that such stoppage will not shift responsibility for any loss or damages from the Other Party to the Organization.

SEVERABILITY

The provisions of these Risk Management Provisions are severable. In the event a court of competent jurisdiction should declare any provision of these Risk Management Provisions to be void or contrary to public policy such provision shall be stricken from these Risk Management Provisions, and the remaining provisions shall be enforced as though the provision determined to be void or contrary to public policy had not been included herein.

INSURANCE - BASIC COVERAGES REQUIRED

The Other Party shall procure and maintain the following described insurance, except for coverages specifically waived by the Organization, on policies and with insurers acceptable to the Organization. These insurers shall have A.M. Best (or equivalent) rating of no less than A: VII unless otherwise agreed to by the Organization.

These insurance requirements shall not limit the liability of the Other Party. The Organization does not represent these types or amounts of insurance to be sufficient or adequate to protect the Other Party's interests or liabilities, but are merely minimums.

Except for workers compensation, the Other Party waives its right of recovery against the Organization, to the extent permitted by its insurance policies.

The Other Party's deductibles/self-insured retentions shall be disclosed to the Organization and may be disapproved by the Organization. They shall be reduced or eliminated at the option of the Organization. The Other Party is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Other Party or any other insurance of the Other Party shall be considered primary, and insurance of the Organization, if any, shall be considered excess, as may be applicable to claims which arise out of the Hold Harmless, Payment on Behalf of Organization, Insurance, Certificates of Insurance and any Additional Insurance provisions of this agreement, contract or lease.

Additional Insured

Except for workers compensation and professional liability, the Other Party's insurance policies shall be endorsed to name the Organization as an additional insured for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by the Other Party's acts or omissions; or the acts or omissions of those acting on the Other Party's behalf; in the performance of the Other Party's ongoing operations for the Organization. The preferred Commercial General Liability coverage endorsement is ISO Form CG 20 10.

Workers Compensation Coverage

The Other Party shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and employer's liability limits of at least \$100,000 each accident and \$100,000 each employee/\$500,000 policy limit for disease.

The Other Party shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile and Excess or Umbrella Liability Coverage

The Other Party shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.

Minimum limits of \$1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

Commercial General Liability Coverage - Occurrence Form Required

Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Other Party is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the Organization's acceptance of renovation or construction projects.

Business Auto Liability Coverage

Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, nonowned and hired automobiles and employee nonownership use.

Excess or Umbrella Liability Coverage

Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it should be at least "following form" and shall not be more restrictive than the underlying insurance policy coverages.

Evidence/Certificates of Insurance

Required insurance shall be documented in Certificates of Insurance, including indication that the policy(s) is endorsed to provide the Organization at least 30 days in advance notice of cancellation, nonrenewal or adverse change.

New Certificates of Insurance are to be provided to the Organization at least 15 days prior to coverage renewals.

If requested by the Organization, the Other Party shall furnish complete copies of the Other Party's insurance policies, forms and endorsements.

For Commercial General Liability coverage the Other Party shall, at the option of the Organization, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the Organization, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Other Party's obligation to fulfill the insurance requirements herein.

CERTIFICATION OF NONSEGREGATED FACILITIES

By the submission of this bid, the bidder, offeror, applicant, or subcontractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location under his control, where segregated facilities are maintained. He certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The bidder, offeror, applicant, or subcontractor agrees that a breach of this certification is a violation of the Equal Opportunity Clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, creed/religion, national origin, age, marital status, or veteran status because of habit, local custom, or otherwise. He further agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors prior to the award of subcontracts or purchase orders exceeding \$10,000; that he will retain such certifications in his files and make them available to the CITY OF APALACHICOLA upon request.

Provided, however, that such certifications shall not be required in the case of purchase orders or contracts which, in case of a Federal Government contract or subcontract, would be exempt from compliance with the Equal Opportunity Clause by 41 CFR S60-1.5. This section provides for the exemption of transactions not exceeding \$10,000, contracts and subcontracts for indefinite quantities established not to exceed \$10,000 in any contract year, contracts with certain educational institutions, work on or near Indian reservations, facilities (including, but not limited to, agencies, instrumentalities or subdivision of state or local government) which are separate and distinct from activities of the prime contractor or subcontractor related to the performance of the contract or subcontract, and emergencies involving national security.

City of Apalachicola WWTP Monthly Report for July 2025

Some of the items that we have been working on this month are listed below.

- Recorded all required daily parameters as outlined by the permit.
- Completed all required monthly testing as outlined by the permit.
- Completed all monthly reports and submitted them on time as outlined in the permit.
- At the time this report was made, the WWTP treated and discharged 8.189mg during the month of July 2025. This still leaves 9 more days in the month for extra flow to be accounted for.
- Staff have continued to remove pine trees in the spray fields and pile them
 for controlled burning with a Department of Forestry permit. This excess
 of trees makes it impossible to cut properly or safely with the equipment in
 these areas.
- AAG Electric completed repairs and installed reuse pump #1 at the WWTP in July 2025.
- Staff have continued to install the new irrigation spray heads and valves that are part of the grant funding for the re-use system.
- Rafa Systems completed the installation of the system controls that were ordered for the WWTP and the east spray field. There will be more units needed to be purchased for the completion of the system for zones 1-25 which are in the west spray field areas.
- We did not have to use our reject pond during the month of July 2025.
- Staff have continued to keep the grounds cut and presentable at the WWTP. Inmates are being used by the City of Apalachicola Public Works to weed eat around the property again.
- Staff have continued to work in the spray fields using the mulcher and the bush hog as well.
- Staff have ordered a new wheel hub and seals for the bush hog right wing assembly. The old one has broken in half and will need to be replaced when the new unit arrives. Staff have already taken the old one apart and are waiting on a new one to arrive.
- Staff have had to routinely take apart the Huber screen on the headworks to clean the rags and debris out of the auger head prior to the discharge point.
- Staff replaced the transducer on the reuse ground storage tank to be able to monitor the water level by using the Rafa System.
- Staff cleaned out the EQ tank during the month of July.
- Staff have reached out for other price quotes for the cleaning and painting
 of the reuse ground storage tank at the WWTP.

 The operator trainee has received course material and has begun the first portion of the required courses and at this time is doing well.

There will be some items that will need to be discussed concerning budget items for the upcoming year and future expenses moving forward. Please be prepared to see those during budget meetings and know that the items presented are not wants but are needs if the job duties are to be expected to be met and preformed.

PRIORITY NEEDS: The city needs to be seriously looking for another licensed wastewater treatment plant operator. I have been in discussions with the current Interim City Manager and have stressed the importance of how badly this is needed. I am currently the only licensed wastewater operator in staffing. We are having to have the previous lead operator cover one shift a week to be able to meet the legal requirements of the DEP permit to staff the facility 8 hours per day 7 days a week with a licensed operator. We currently have me (William Cox) as the lead operator and an operator trainee (Micah Harris) working the plant daily (Monday -Saturday) with a private contract employee (Robert Graham) currently working on Sundays to meet the legal requirements. We have one other employee that is a laborer and equipment operator but not a treatment plant operator. He only has a little over a year before he retires as well. In years past, there were as many as 4 licensed operators, and they had all been able to leave without their positions being refilled, other than when I came back to work for the city in late 2020. There are justifiable reasons for there to be a second licensed operator on staff. In the event I were to need to be off for any reason such as emergency, vacation or possibly death or job chang, the fact the permit requires the City to automatically begin coverage of 16 hours per day 7 days a week when we reach the 3 month average daily flow of 500,000gpd (currently we are at .309mgd); the City would be in a position of not being able to meet the legal obligations of plant coverage. While an operator trainee is a great asset to have and be able to learn, there is no guarantee that any individual in that position will be able to obtain the license. The tests are not easy. I interviewed a few candidates for the position before hiring the trainee and all have said the same thing; it cost too much to relocate here for the wage the city was offering for the position. This will need to be looked at and corrected if we are going to be serious about getting anyone to move here and accept the position.
