

RFQ2026-001 for General Municipal Engineering and Coastal Engineering Services Results.

The results have been vetted, scored, and below is the list of the top eight firms qualified for providing Continuing Services. Under Florida's Consultant's Competitive Negotiation Act (CCNA via Section 287.055, F.S.), continuing contracts for professional engineering projects can be used for individual projects with an estimated construction cost of \$7,725,000 with professional fees for standalone planning or study projects capped at \$500,000. Projects consisting of Federal Funds can require additional qualification-based selection (RFQ or RFP).
